Tutto ha inizio da una sedia in legno con la seduta impagliata, la Marocca. È il 1923 e Antonio Calligaris fonda a Manzano, in Italia, un'azienda destinata a diventare un marchio conosciuto in tutto il mondo. Di generazione in generazione, Calligaris si trasforma in un'industria moderna e internazionale. Oggi che ha superato il secolo di vita, continua a raccontare con i suoi prodotti una storia di innovazione, saper fare e design italiano.

It all starts with a wooden chair featuring a woven seat, the Marocca. It is 1923, and Antonio Calligaris founds a company in Manzano, Italy, destined to become a globally recognized brand. From generation to generation, Calligaris evolves into a modern and international industry. Today, after a century of existence, it continues to tell a story of innovation, know-how, and Italian design through its products.

Calligaris, dal 1923 /Since 1923

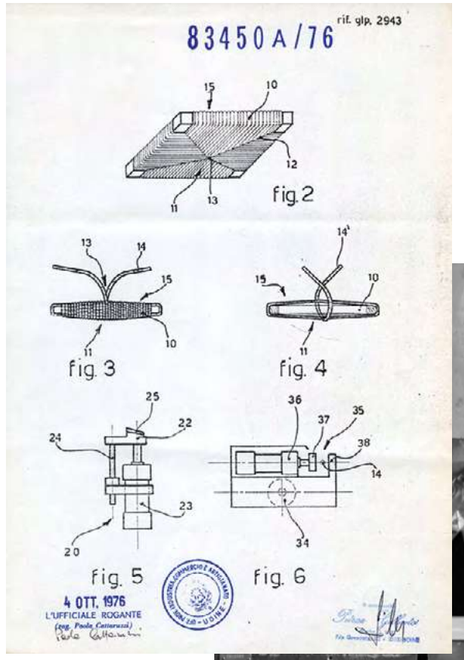

Calligaris è testimone di un secolo di saper fare. Dalla tradizione artigianale delle origini alla meccanizzazione degli anni Settanta, fino alla consolidata forza industriale di cui gode oggi, l'azienda ha sempre interpretato la produzione di arredamento come un progetto capace di coniugare estetica e funzionalità, passato e presente, eccellenza e qualità.

Calligaris is witness to a century of know-how. From the artisanal tradition of its origins, to the mechanization of the 1970s, to the consolidated industrial strength it enjoys today, the company has always interpreted furniture production as a project that combines look and functionality, past and present, excellence and quality.

La capacità di abbracciare il cambiamento è la caratteristica più duratura del marchio Calligaris, e l'ingegno il pilastro su cui si basa la sua spinta all'innovazione. Punta di diamante sono i meccanismi di allunga dei tavoli. Semplici, eppure estremamente ingegnosi, i meccanismi sono la migliore dimostrazione dell'attitudine di Calligaris a offrire soluzioni innovative per la vita di tutti i giorni.

The ability to embrace change is the most enduring characteristic of the Calligaris brand, and ingenuity is the pillar that supports its drive for innovation. A highlight of this are the extension mechanisms of its tables. Simple yet extremely ingenious, these mechanisms are the best demonstration of Calligaris' aptitude for offering innovative solutions for everyday life.

Carv è una libreria modulare dall’estetica contemporanea. Il minimalismo delle sottili lastre d’acciaio della struttura incontra quello dei supporti verticali, che suddividono in modo funzionale lo spazio del ripiano. Visivamente leggeri ma solidi, i moduli di Carv si affiancano in orizzontale o si sovrappongono in verticale per creare la composizione desiderata, anche a centro stanza.

Carv is a modular bookcase with a contemporary look. The minimalism of the thin steel plates of the structure meets that of the vertical supports, which functionally divide the shelf space. Visually light yet sturdy, Carv’s modules can be placed side by side horizontally or overlapped vertically to create the desired composition, even in the centre of the room.

Pur realizzato su telaio industriale, Cementino ha una resa da tappeto fatto a mano e un fascino d'altri tempi, adatto agli interni più classici.

Intersecandosi tra loro, le sottili trame esagonali del tappeto Offset generano un'elegante profondità visiva, esaltata nell'accostamento fra più tappeti in verticale o in orizzontale grazie al pattern continuo. Realizzato con telaio industriale, per la particolare lavorazione Offset ha una resa paragonabile ai tappeti intrecciati a mano.

Intersecting with one another, the thin hexagonal weaves of the Offset rug generate an elegant visual depth, enhanced by pairing multiple rugs vertically or horizontally thanks to the continuous pattern. Although made with an industrial loom, due to the particular detail work Offset has a finish comparable to handwoven rugs.

La forma dei tappeti Roche è ispirata a quella naturale di rocce e pietre. A sottolineare i contorni irregolari è un cambio di tonalità, che lascia al centro il colore più intenso. Roche è realizzato in Europa con telaio jacquard, la cui caratteristica è la possibilità di usare un gran numero di colori e creare sfumature che sarebbero impossibili da realizzare a mano.

The shape of the Roche rugs is inspired by the natural one of rocks and stones. Emphasizing the irregular contours is a change in tone, leaving the centre with the most intense colour. Roche is made in Europe with a jacquard loom, whose characteristic is the ability to use a large number of colours and create shades that would be impossible to achieve by hand.

Per il tappeto Terrazzo, Calligaris si è ispirata all'iconica pavimentazione in graniglia di marmo che deve la sua fama all'architettura veneziana del Quattrocento. Realizzato a macchina con una particolare lavorazione che richiama i tappeti fatti a mano, rilegge il sorprendente effetto visivo che caratterizza questo tipo di pavimentazione attraverso il filato.

For the Terrazzo rug, Calligaris drew inspiration from the iconic marble terrazzo flooring that owes its fame to Venetian architecture of the 15th century. Made by machine with a special detail work that recalls handmade rugs, through the yarn it reinterprets the amazing visual effect that characterizes this type of flooring.

Il tappeto Uptown aggiorna le grafiche razionaliste del Novecento in chiave contemporanea. Il contrasto tra le tonalità tabacco, grigio e bianco dà al tappeto un carattere deciso ma elegante, adatto al living domestico ma anche agli ambienti più intimi della zona notte. Realizzato a macchina, ha tutto l'aspetto di un tappeto fatto a mano.

The Uptown rug modernizes the rationalist designs of the 20th century. The contrast between the tobacco, grey, and white tones gives the rug a decisive yet elegant character, suitable for the domestic living room but also for the most intimate spaces of the night area. Made by machine, it has all the look of a handmade rug.

I tappeti Zen si ispirano all'arte giapponese, e in particolare ai disegni a china dove le pennellate di colore hanno un andamento irregolare. Nel sottile mix di contrasti, ottenuto attraverso l'armonioso uso di chiari e scuri, i tappeti evocano una sensazione di pace ed equilibrio, ideale negli interni domestici.

The Zen rugs are inspired by Japanese art, in particular by the ink drawings where brushstrokes of colour have an irregular flow. In the subtle mix of contrasts, achieved through the harmonious use of chiaroscuro, the rugs evoke a sense of peace and balance, ideal for domestic interiors.
